We invite you to join us at next year's National Prostate Cancer Conference at the Grand Millennium Auckland.

More and more Kiwi men are living with prostate cancer – because more men are being diagnosed earlier and treatments are more effective. That is good news for many. We are also committed to helping patients, their partners, families and whanau live well when they encounter the disease by providing information and support programmes that add to their quality of life.

It is exciting to see some of the significant changes and developments in prostate cancer diagnostic procedures and treatments, and the results of some of the exciting research projects we have supported. Join us at our 2019 National Conference where we will be addressing a lot of these issues.

Our speakers include:

Dr Remy Lim – Radiologist, Mercy Radiology

Jacinta Townsend – Urology Nurse Practitioner, Counties Manukau DHB

Dr Leanne Tyrie – Radiation Oncologist, Kathleen Kilgour Centre, Tauranga

Dr Michael Holmes – Urologist, Urology Waikato

Steve Callister – National Chairman, Prostate Cancer Foundation Australia

Jane Endacott – CEO, Prostate Cancer Foundation Australia

Mark von Dadelszen qsm – President, Prostate Cancer Foundation NZ

Graeme Woodside – CEO, Prostate Cancer Foundation NZ

Supported by:  **THE LION FOUNDATION**
